- Colouring
- Craft: Badge for a friend
- Finger printing
- Face mask

ICT

- To move the mouse and click appropriately
- **Games:** Rabbit Reader on ICT software

LIFE SKILLS (CIRCLE TIME)

Circle time is a fun portion of the school day, first thing in the morning.

During the circle time children sit on a mat in a circle with the teacher in the centre. Teacher is in close proximity with the children, children can make an eye contact with teacher, establish good peer bonding by sitting close to each other.

Some of the activities done during this time are:

- Roll call activity and helpers of the day
- Making new friends
- Sharing

What YOU can do to help your child learn better:

- At home you can sit close to the child, give him/her a sense of security that you are there for him/her.
- Read out stories to the child, share how was his day, talk about his favourite show. Give freedom to express freely and give a good listening to the child.
- Ask children to support you in simple things like keeping plates, keeping the toys away after play.
- Ask your child to tell you about their friends in school.
- Sing rhymes with your child and enjoy with them.
